

Criterion B: Development

Figure 1: Screenshot of the Main Menu

In the figure above, there is a screenshot of the chord selector in action.

The radio buttons A-G are for selecting the root note of the chord.

The switch by the TextView that says "Sharp?" Is a switch to decide if the root note is sharp.

The radio Buttons Major – Augmented are to decide what type of chord it is.

The radio buttons 7-none are to decide what interval the chord is on.

View chords lets the user view the chords entered.

Next Chord lets the user enter their current chord and start on their next chord.
